IN TRANSPORTATION FACILITIES THE COUNTRY RANKS HIGH.

Only Seven Persons Killed Out of Over 21,000,000 Carried Dur-

In a report to the State Department by Consul General Bittinger, at Montreal, Canada, upon the railways of that country, he says that in whatever respects Canin the march of progress or in efforts for developing its commercial opportunities, it must be admitted that in providing railway facilities the dominion has been in

the front rank-far ahead, indeed, of some of the oldest European nations. On June 30, 1900, there were 17,824 miles of railway in operation in that country. The systems were formerly owned by 154 companies, but they are now owned by 86. The government of Canada owns two roads, the Intercolonial and the Prince Edward Island. In the operation of all the systems there are used 2,252 locomotives, 2,166 passenger and 662 baggage and express cars, 64,979 freight cars, 1,928 cars for conductors and railway service and 611

snow plows. Only Seven Killed.

The traffic carried during the year ended June 30, 1900, comprised 21,500,175 passengers, only 7 of whom were killed, and 35,-346,183 tons of freight. The total number

946,183 tons of freight. The total number of miles traveled by passenger trains was 20,922,098; by freight, 24,662,906, and by mixed trains, 9,592,867.

The earnings of the companies during the year ended June 30, 1900, were \$70,740,270, an increase over the preceding year of \$8,490,486, while the working expenses amounted to \$47,699,798, an increase of \$6,993,581. The net earnings of the company during that period were \$23,040,472, or \$1,502,804 more than the preceding year. FOREIGN POSTAL SERVICE PHILIPPINE CIVIL SERVICE

FIRST ANNUAL REPORT OF THE

BOARD RECEIVED.

Ultimate Classification of All Posttions to Be Made-Fitness of Employes.

The first annual report of the Philippine civil service board was received here in Washington yesterday. It says that the civil service act, passed before the organizat! A of the board, is so explicit that many important questions which otherwise would have arisen in the preparation of the rules were solved by the passage of the act. The act makes disloyalty to the United States as the supreme authority of the islands a complete disqualification for holding office. Every one examined must first take the oath of loyalty. An amendment to the act, made January 26 last to take effect April 1, declares all persons in arms against the United States in the Philippines, and all persons aiding or abetting them, ineligible to hold office. A minimum age limit of eighteen years and maximum

of forty years is fixed for the lower grades

Ultimate Classification.

The act provides for the ultimate classification of all positions in the service, from laborers to heads of bureaus and offices, and the board is empowered to determine the efficiency of present and future government employes. The classification of policemen, firemen and guards at penitentiaries and prisons has been postponed until there are fewer disturbing elements In the islands. This is in line with the opinion of the military governor that the pres-ent system of selecting these employes be not departed from. Owing to the urgent need of securing teachers without delay, and the large number required, these posttions were excepted from the provisions of the civil service act. It is believed that conditions in the near future will warrant their inclusion. The selection of skilled and unskilled laborers has been left to the heads of the several depariments or offices, with certain conditions as to certifying the facts on which any re-movals may be based. While it is be-lieved that the board in time will find it advisable to accept applications for employment as laborers, and to subject applicants to tests of fitness. It is not seen

how, under existing conditions, this can

be done.
Fitness of Employes. The question of ascertaining the fitness of employes now in the service will be considered by the board at the earliest practicable date. At the beginning of the civil administration, says the report, it is essential that the service should not be embarrassed by the presence of incompe-tent employes. The act, while giving preference to natives and soldiers, still safe-guards the service by requiring that they shall pass their examinations sufficiently high to have their names certified for appointment. The board says that natives found to have the capacity for positions now held by the Americans should be advanced to them as rapidly as practicable. The Filipinos, the report says, have apti-tude and a desire for knowledge. The report describes the civil service act as "a method to prevent unworthy persons from securing admission to the service and to promote economy, efficiency and honesty in the transaction of public business, which is desired in the future government of these islands, so that the people may have the fullest measure of good government at the least expense to themselves. The board invites suggestions at any time from persons in the public service as well
